

## WASDE-Weltbilanz für Getreide und Ölsaaten in Mio. t

WASDE (World Agricultural Supply and Demand Estimates) ist das Erhebungs- und Prognosemodell des US-Landwirtschaftsministeriums (USDA), um für Getreide und Ölsaaten weltweit Versorgungsbilanzen erstellen zu können. Der Bericht erscheint monatlich.

| Weizen                  | 2016/17 | 2017/18 | 2018/19 | 2019/20 | 2020/21 | 2021/22 | 2022/23 | 2023/24 | 2024/25* | 2025/26** |
|-------------------------|---------|---------|---------|---------|---------|---------|---------|---------|----------|-----------|
| Produktion              | 763     | 731     | 764     | 762     | 774     | 780     | 790     | 792     | 801      | 816       |
| Import                  | 179     | 180     | 171     | 188     | 195     | 200     | 213     | 223     | 199      | 211       |
